Certifications

Sustainability

Mars follows trusted global standards and wide-reaching environmental and social policies so our factories stay responsible and steady long into the future.

Building Safety

Our factories are constructed and maintained with care and strict safety measures, enforced by our in-house engineers. With guidance from the RSC and Nirapon over the years, our facilities meet the trusted standards of these organizations.

Social & Technical Compliance

Mars is approved by trusted social and technical compliance organizations. Our dedicated teams ensure our factories match the standards and technical needs of every buyer.

Environmental Sustainability

Our strong environmental policies and regular testing help us rise above standard industry needs. We're proud to support globally respected sustainability programs, including the Higg Index and Amfori BEPI.
